

Times we met up

Tuesday, 3/5, 12:00 - 3:30 : developed an outline on how we want to write our program and wrote pseudocode

Wednesday, 3/6, 8:00 - 10:00 : implemented the functions to read the file and write it to the board matrix, to check the rows, check the columns, and check the subgrids

Friday, 3/8, 4:30 - 8:30 : finished filling in the if (option == ...) statements in main function

Saturday, 3/9, (zoom) 11:30-12:20 : final debugging and gathering data for analysis

Vijay >

Ok

9:24 PM

I can take a look when i get back home

9:24 PM

Lol okay 👍

9:24 PM

Let's try to get all the charts and everything done too tn

9:24 PM

I'll start it I'll do 2 of them u can do 1

9:25 PM

Okay 👍

9:25 PM

But, we've got to work together

9:25 PM

Since the replit time is way different than the VM

9:26 PM

Ohh okok

9:27 PM

Vijay >

I just made a GitHub repo
send me ur email
whenever and I'll share it
w u

12:41 AM

[vmanchiraju800@gmail.co
m](mailto:vmanchiraju800@gmail.com)

12:41 AM

Same one

12:41 AM

Checking subgrifs doesn't
work

12:51 AM

When the board is invalid

12:51 AM

I'm tryna fix it rn

12:52 AM

Actually idk if it's chrck
subgrifs but option 3 as a
whole doesn't work

12:54 AM

What is the error?

12:55 AM
